In 1979, two young dentist and their wives who embarked on a journey to Naples after graduating from the University of Florida Dental School. There they would start their families and open their dental practice.

As their families grew...

So did their practice, and staff...

They grew so much that the garden between their buildings, was transformed into a beautiful facility to accommodate their growing practices, staff and dental family...
As the years passed, we watched Chris Page grow up, graduate from the University Of Florida Dental School, and joined our dental practice...

Along the way we watched him meet his future wife and we celebrated their nuptials...

Our journey began thirty five years ago; we have many more faces around for everyone to meet. Some of us have been here since the beginning; some of us are new...

We look forward to sharing the coming years with you and we are very grateful to you for your trust and support over these years!

Yours truly,

Boe, Page & Page, Alexis, Alicia, Anne, Brenda, Brittany, Carol, Cheri, D’Anna, Dawn, Jennifer, Kathy, Lauren, Linda, Magi, Maria, Mary and Vanessa.
